

Community Hall and Youth Centre South Cerney

Build adjacent to a new residential development to provide a focal point for the local community, this project comprised the construction of a two storey building to form a Community Hall and Youth Centre.

Built on piled foundations, the building utilises a timber frame with timber internal finishes and an external façade being a combination of natural stone and cedar cladding.

External works include car parking, footpaths and soft landscaping.

- Client:** South Cerney Parish Council
