

Woodford Primary School, Plymouth

This Design and Build contract, under the Scape Framework, comprised four phases involving extensions, alterations and remodelling to this busy primary school in Plympton. The school remained occupied during the works and it was incumbent on the project team to arrange works and screening such that the new works did not impact too heavily on the day-to-day operation of the school.

In essence, the works comprised:

- Demolition of temporary classrooms
- 2 classroom extension to infant section
- 4 classroom extension to junior section
- Extensions to hall and kitchens
- External walkway
- Internal inclined platform lifts
- New boilers and pipework
- Hard car park areas and footpaths.

Client: Willmott Dixon/Plymouth City Council

Value: £1.6m
