

Devonport Health Centre, Plymouth

This project involved the construction of a brand new community facility for health specialist developer GPIC Ltd, to provide a purpose built primary medical care facility as part of a relocation of a local doctors practice.

A two-storey, steel framed building, the new medical centre has:

- 8 consulting rooms
- 2 treatment rooms
- Reception area on ground floor
- Waiting areas on first floor
- Administration rooms and a new staff room
- Large meeting room on first floor installed with folding partition
- Lift access to first floor
- Single storey Pharmacy

Client: GPIC Ltd
Value: £1.4m
Contract: JCT Design Build 2011
Duration: 48 weeks
Completed: September 2015
